

2200lm, 700mA, 50000h, 30W

seagull

Seagull is a lighting fixture for parks, pathways and parking places. It is completely tailorable to user needs – specify enclosure color, light temperature or lamp shape.

Customizable shape gives easy blending possibilities. Our designers help you to find optimal solution – is it seagull for harbour areas, two skies for snow resorts or leaves for general park areas.

Lighting fixture is totally maintenance free and tested at our facilities with over 3 years of continuous operation and no measurable degradation.

- power 40W, 800mA
- 2200 lumens
- optimized light distribution
- supplied with power module
- working temperature -40..+35° C
- installation height 5..7m
- installation distance 12..30m
- voltage 230VAC, 50Hz
- IP67
- mass (lamp) 5kg
- lifetime 10..20 years
- no maintenance needed
